Hamilton Thorne Ltd
Notes to the Consolidated Interim Financial Statements
For the three months ended March 31, 2010 and 2009
(Expressed in U.S. Dollars - unaudited)

1. Basis of Presentation

The interim unaudited consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles (Canadian GAAP) and are presented in U.S. dollars. They are consistent with the policies used in the preparation of our annual audited consolidated statements. These interim unaudited consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2009 which are available on SEDAR.

Hamilton Thorne Ltd. (the "Company" or "HTL") was created on October 28, 2009 by the reverse takeover ("RTO") by Hamilton Thorne, Inc. ("HTI") of Calotto Capital Inc. ("Calotto")(the "Transaction"). Calotto was incorporated under the Business Corporations Act (Ontario) on February 19, 2007 and was classified as a Capital Pool Company as defined in Policy 2.4 of the TSX Venture Exchange (the "Exchange"). Accordingly, Calotto had no assets other than cash and no commercial operations.

These interim unaudited consolidated financial statements have been prepared on the "going concern" basis, which presumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future.

These interim unaudited consolidated financial statements include the accounts of the Company and its wholly owned subsidiary Hamilton Thorne, Inc. All significant inter-company balances and transactions have been eliminated on consolidation. The Company has no interest in variable interest entities.

2. Reverse Takeover Accounting

Pursuant to the terms of the Merger Agreement, dated October 12, 2009, HTI became a wholly owned subsidiary ("legal subsidiary") of the Company and 303.89 common shares of HTL were issued in exchange for each common share of HTI outstanding. In addition, all warrants and options of HTI outstanding were similarly converted into warrants and options to purchase common shares of HTL at the same 303.89 conversion rate, on economically equivalent terms and conditions.

Prior to the effective date of the transaction, Calotto undertook a consolidation of its common shares in a ratio of 1 for 7.712255, thereby reducing the common shares outstanding from 22,211,925 shares to 2,880,085 shares. Similarly, options to purchase common shares outstanding were reduced from 2,220,001 to 287,854. In addition, immediately preceding the RTO, HTI raised gross proceeds of \$2,065,107 (Cdn\$2,200,000), including conversion of debt of \$475,000 (Cdn\$503,500) in a brokered private placement, issuing units consisting of one share of common stock and a warrant to purchase one share of common stock priced at Cdn\$121.556 (\$114.675) per unit (see note 9). The costs, including agent's commission and expenses, of the private placement amounted to \$415,297.

The transaction was effective October 28, 2009 and has been accounted for as an RTO transaction in accordance with guidance provided in Emerging Issues Committee Abstract No. 10 - Reverse Takeover Accounting (EIC 10). As Calotto did not qualify as a business for accounting purposes, according to the definition in Emerging Issues Committee Abstract No. 124 - Definition of a Business (EIC-124) the transaction has been accounted for as an issuance of shares by HTI for the net monetary assets of Calotto followed by a recapitalization of HTI.

The net assets of the Company received were as follows:

Cash	794,832
Less current liabilities	<u>9,655</u>
Net assets acquired	<u>785,177</u>

(Expressed in U.S. Dollars - unaudited)*

2. Reverse Takeover Accounting *(continued from previous page)*

Pursuant to the RTO transaction, the financial statements for the year ended December 31, 2009 reflect the assets, liabilities and results of operations of HTI prior to the RTO. The consolidated assets, liabilities and results of operations of Calotto and HTI are included subsequent to the RTO. The consolidated financial statements are issued under the the legal parent (the Company), but are deemed to be a continuation of the legal subsidiary. Net loss per share has also been adjusted for all periods presented in accordance with the guidance provided in EIC Abstract No. 10. Accordingly, the shares issued in respect of the private placement and the settlement of the debt in the current year have not been included in the calculation of basic and fully diluted earnings per share in the prior year.

The costs of the RTO amounted to \$497,830. Under the provisions of EIC-10 these costs are to be charged to retained earnings to the extent of cash in the non-operating public company (Calotto), with the excess, if any, to be charged as an expense. At the time of the closing of the transaction Calotto had \$794,832 in cash; therefore the entire amount of the transaction costs have been charged to accumulated deficit.

The Company changed its fiscal year end from January 31 to December 31 as a result of the RTO.

3. New Accounting Pronouncements

Business Combinations

Section 1582, Business Combinations, replaces Section 1581, Business Combinations. The section establishes standards for the accounting for a business combination. It provides the Canadian equivalent to the IFRS standard, IFRS 3 (Revised), Business Combinations. The section applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2011. The new standard is not expected to have a material effect on the Company's consolidated financial statements.

Consolidated Financial Statements

Section 1601, Consolidated Financial Statements and Section 1602, Non-Controlling Interests, together replace Section 1600, Consolidated Financial Statements. Section 1601 establishes standards for the preparation of consolidated financial statements. Section 1602 establishes standards for accounting for a non-controlling interest in a subsidiary in consolidated financial statements subsequent to a business combination. It is equivalent to the corresponding provisions of IFRS standard, IAS 27 (Revised), Consolidated and Separate Financial Statements. The sections apply to interim and annual consolidated financial statements relating to fiscal years beginning on or after January 1, 2011. Earlier adoption is permitted as of the beginning of a fiscal year. The Company is currently evaluating the impact of the adoption of these new sections on the consolidated financial statements.

EIC-175

In December 2009, the CICA issued EIC 175, Multiple Deliverable Revenue Arrangements, replacing EIC 142, Revenue Arrangements with Multiple Deliverables. The accounting changes summarized in EIC-175 are effective for fiscal years beginning on or after January 1, 2011, with early adoption permitted. Adoption may either be on a prospective basis or by retrospective application. If the Abstract is adopted early, in a reporting period that is not the first reporting period in the entity's fiscal year, it must be applied retroactively from the beginning of the Company's fiscal period of adoption. The Company is currently assessing the future impact of these amendments on its consolidated financial statements and has not yet determined the timing and method of adoption.

3. New Accounting Pronouncements *(continuing from previous page)*

International Financial Reporting Standards

In February 2008, Canada's Accounting Standards Board (AcSB) confirmed that Canadian GAAP, as used by publicly accountable enterprises, will be fully converged into IFRS, as issued by the International Accounting Standards Board (IASB). The changeover date is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. Therefore, the Company will be required to report under International Financial Reporting Standards ("IFRS") no later than in the first quarter of 2011, with restatement of comparative information. The conversion to IFRS will impact the Company's accounting policies, systems, disclosures and controls.

The Company completed the planning phase of its changeover plan in the fourth quarter of 2009 and is currently in a detailed assessment phase. The Company has identified the following phases of its conversion plan: preliminary impact assessment, detailed analysis and implementation. A diagnostic of the potential areas of impact has been undertaken and is currently being reviewed. A team has been identified to undertake the impact assessment and detailed analysis which will result in new accounting policies, quantification of statement impacts and preparation of pro-forma financial statements. Implementation will include the design of systems and reporting processes to support the conversion and training to sustain IFRS financial data and processes for 2011 and beyond.

4. Inventories

Inventories are stated at the lower of cost and net realizable value using the average cost method. Inventories are reviewed periodically for slow-moving or obsolete status based on sales activity, both projected and historical, and allowances are established for inventory that is determined to be excess or obsolete. During the 2010 quarter, the Company increased its allowance by \$6,000 (\$6,000 in 2009). No write down of inventories was recorded during 2010 or 2009. Included in cost of sales are inventory costs of \$338,008 for 2010 (\$291,245 in 2009).

8. Long-term Debt *(Continuing from previous page)*

Notes payable under bank line of credit

In October 2007, the Company consolidated two separate line of credit agreements with different banks into a line of credit with one financial institution. The agreement provides for a maximum borrowing of \$5,000,000. Borrowings under the agreement were payable on demand until September 30, 2009 when the agreement was amended to establish a loan termination date of October 1, 2011.

The notes bear interest at the LIBOR 30 Day Index Rate plus 2% or lender's base rate less one-half percent based on the date of the borrowing at the borrower's election, but in no case will the rate be less than four percent per annum. Borrowings under the agreement are collateralized by substantially all the Company's assets and by letters of credit provided by two stockholders. The Company is in compliance with the one financial covenant in the agreement. As of March 31, 2010 borrowings totaled \$4,998,000 (\$5,000,000 at December 31, 2009) with interest at 4% and were classified as long-term debt on the balance sheet.

Subordinated convertible note payable, shareholder

A shareholder provided financing in the amount of \$400,000 to the Company in increments of \$100,000 in each of March, May, June and August of 2009 in the form of subordinated convertible notes, payable two years from the date of the note. The notes were convertible, at the option of the holder, in the next round of equity financing that raised a minimum of \$1.5 million (exclusive of the noteholders participation in the equity financing) at the same terms and conditions as other investors participating in the equity financing. In August and September 2009 a then director of the Company lent the Company \$75,000 and \$50,000, respectively, on subordinated convertible notes under the same terms and conditions as the four \$100,000 notes above. All these notes were subordinated to the Company's bank line of credit. In October 2009 immediately preceding the RTO, \$475,000 of these notes were converted to equity as part of the private placement (see note 9 below) leaving a \$50,000 note outstanding at March 31, 2010 and December 31, 2009.

9. Private Placement

In October 2009, immediately preceding the RTO, HTI completed a brokered private placement whereby HTI issued 13,956,531 (4,241,254 on a post-RTO basis) units (the "Units"). In addition, at the same time \$475,000 of debt was converted into 4,142,124 (1,258,751 on a post-RTO basis) Units. Each Unit consists of one common share and one common share purchase warrant. Each warrant entitles the holder to purchase one common share at a price of Cdn\$0.60 (\$0.566) for a period of eighteen months from the date of issuance.

The relative fair value of the warrants included in the private placement units were valued using the Black-Scholes option pricing model using the following fair value assumptions: dividend yield 0%, volatility 65%, expected life 1.5 years and risk free interest of 1%. The fair value of each warrant was \$0.05 and the fair value of the warrants was allocated to warrants in the amount of \$271,035.

The agent for the private placement received an 8% selling commission and options to acquire that number of Units equal to 8% of the number of Units sold pursuant to the offering and of the Units issued in the debt conversion for a total of 440,001 Units (post RTO).

The relative fair value of the agent options were valued using the Black-Scholes option pricing model using the following fair value assumptions: dividend yield 0%, volatility 65%, expected life 1.5 years and risk free interest of 1%. The fair value of each option was \$0.17 and the fair value of the options was allocated to warrants in the amount of \$73,914.

10. Share Capital

There are an unlimited number of common shares authorized. The issued and outstanding common shares are 24,415,157 at both March 31, 2010 and December 31, 2009.

11. Escrowed Shares

Under the requirements of the Ontario Securities Commission and the TSX Venture Exchange, 15,511,613 common shares issued under the November 5, 2009 Qualifying Transaction ("Exchange Notice") and 310,272 options to purchase common shares are subject to Surplus Security Escrow Agreements. 570,523 shares are under a CPC Escrow Agreement and will be released as to 10% on the issuance of the Final Exchange Notice ("Initial Release") and as to 15% on each of the 6, 12, 18, 24, 30 and 36 months following the Initial Release. The remaining 14,941,090 shares and the 310,272 options are under a QT Escrow Agreement and will be released as to 5% on the Initial Release, 5% 6 months following, another 10% on each of the 12 and 18 months following, another 15% on each of the 24 and 30 months following and the final 40% 36 months following the Initial Release.

As at March 31, 2010, 14,707,511 common shares and 294,759 options were held in escrow under these agreements.

12. Warrants

See Note 9 – Private Placement for warrants issued in the private placement and in conjunction with the debt conversion. All the 5,500,005 warrants and 440,001 agent options expire on April 28, 2011 and are outstanding at March 31, 2010.

13. Stock Option Plans

2007 Stock Option Plan of Calotto

Calotto adopted the 2007 Stock Option Plan (the "2007 Plan") on July 20, 2007. Under the 2007 Plan, the board of directors of Calotto may from time to time, in its discretion, and in accordance with the Exchange requirements, grant to directors, officers and technical consultants to Calotto, non-transferable Calotto Options to purchase Common Shares, exercisable for a period of up to five years from the date of grant. The number of Common Shares reserved for issuance under the 2007 Plan is equal to 287,854 Common Shares on a post-RTO basis.

The number of common shares reserved for issuance to any individual director or officer under the 2007 Plan may not exceed 5% of the issued and outstanding common shares and the number of common shares reserved for issuance to all technical consultants under the 2007 Plan may not exceed 2% of the issued and outstanding common shares. Options may be exercised no later than 90 days following cessation of the optionee's position with Calotto, provided that if the cessation of office, directorship, or technical consulting arrangement was by reason of death, the option may be exercised within a maximum period of one year after such death, subject to the expiry date of such option. If an optionee shall cease to be a director of Calotto upon Calotto successfully completing its Qualifying Transaction, then all unexercised options granted to such optionee shall expire one year from the date of the Final Exchange Bulletin issued by the Exchange in connection with such Qualifying Transaction which was November 5, 2009.

At March 31, 2010, there are 287,854 Calotto options outstanding, exercisable into 287,854 common shares under the 2007 Plan at an exercise price of Cdn\$0.7712255 per share that were all granted in 2007. There were no options granted, forfeited or terminated during 2008 or 2009. Options for 99,260 shares expire on July 20, 2012 and options for 188,594 shares will expire on November 5, 2010 due to termination of participants because of the completion of Calotto's Qualifying Transaction. No further options may be granted under the 2007 Plan.

13. Stock Option Plans *(Continuing from previous page)*

2009 Stock Option Plan

On August 4, 2009 the Company adopted the 2009 Stock Option Plan (the "2009 Plan"). Under the 2009 Plan, the board of directors of the Company may from time to time, in its discretion, and in accordance with the Exchange requirements, grant to directors, employees, consultants and consultant companies options to purchase common shares, exercisable for a period of up to ten years from the date of grant. The 2009 Plan was approved by the shareholders of the Company in August 2009 and 3,431,830 shares are reserved for issuance under the 2009 Plan. As of March 31, 2010 there are 186,928 options available for future grants.

The number of common shares reserved for issuance to any individual director or officer under the 2009 Plan may not exceed 5% of the issued and outstanding common shares and the number of common shares reserved for issuance to all consultants under the 2009 Plan may not exceed 2% of the issued and outstanding common shares. Options may be exercised no later than 90 days following cessation of the optionee's position with the Company, provided that if the cessation of a participant was by reason of death or disability, the option may be exercised within a maximum period of one year after such death, subject to the expiry date of such option. Options granted may be "incentive stock options" for US participants. The exercise price per share shall be based on the closing sale price traded on an exchange on the first business day preceding the date of grant.

13. Stock Option Plans *(Continuing from previous page)*

The fair value of options granted in 2010 was determined using the Black-Scholes option pricing model with a weighted average volatility of 65%, risk-free interest rate of 3.12%, dividend yield of nil and an expected life of 6.25 years. Volatility was estimated by using the historical volatility of other companies that the Company considers comparable that have trading and volatility history. The expected life represents the period of time that options granted are expected to be outstanding. The risk-free rate is based on the US Treasury notes rates with a term similar to the expected life of the options.

The Company recorded stock-based compensation expense of \$39,750 and \$9,750 during the quarters ended March 31, 2010 and 2009, respectively. Amounts included in General and administrative expenses totaled \$39,750 for 2010 (\$3,750 in 2009) and in Research and development expenses \$0 for 2010 (\$6,000 in 2009).

16. Loss Per Share

Basic loss per share is calculated by dividing the loss for the period by the weighted average number of common shares outstanding during the period. The diluted loss per share is calculated using the treasury stock method. Under this method, the dilutive effect on loss per share is recognized on the use of the proceeds that could be obtained upon exercise of options, warrants and similar instruments. It assumes that the proceeds would be used to purchase common shares at the average market price during the year.

17. Related Party Transactions
