

**FOR IMMEDIATE RELEASE**

TSX VENTURE: HTL

## Hamilton Thorne to Present at BioFinance 2010 Investor Conference

**TORONTO, Ontario – April 6, 2010** - Hamilton Thorne Ltd. (TSX-V: HTL), a leading provider of advanced laser systems and instruments for the stem cell research and fertility clinic markets, today announced that Meg Spencer, Chairman and CEO of Hamilton Thorne is scheduled to present an overview of the Company's operations at the 2010 BioFinance Investor Conference, held at the Toronto Marriott Eaton Centre Hotel in Toronto. The presentation is scheduled from 10:00 am to 10:30 am (Eastern Time) on April 7, 2010 in the Trinity I Room. Interested parties can access an archived copy of the presentation slides the morning of the Conference by visiting Hamilton Thorne's website at [www.hamiltonthorne.com](http://www.hamiltonthorne.com).

### **About Hamilton Thorne Ltd.**

Hamilton Thorne's advanced laser systems and instruments are rapidly emerging as the dominant products to facilitate precise procedures in the stem cell research and fertility clinic markets. Hamilton Thorne's lead products, the ZILOS-tk and XYClone laser systems, attach to standard inverted microscopes and operate as robotic micro-surgeons, significantly reducing time and increasing efficiency in key in-vitro fertilization, stem cell, embryo, reproductive toxicology and living cell procedures.

Hamilton Thorne's growing customer base includes pharmaceutical companies, biotechnology companies, fertility clinics, university research centers and other commercial and academic research establishments worldwide. Current customers include world-leading research labs such as Harvard University, MIT, Yale, DuPont, Monsanto, Charles River Labs, Jackson Labs, Merck, Novartis, Pfizer, Oxford University and Cambridge.

### **About BioFinance 2010**

BioFinance 2010 is the leading investor conference in Canada for the life sciences industry. This three-day event brings together key industry players interested in investment opportunities and issues affecting companies in the life sciences sector. Presenting companies will span a range of industries including: biologics, medical devices, drug delivery, vaccines, diagnostics, bio-energy, green technologies, bio materials, industrial biotech, and research services.
